

Community Association at Estero, Inc.

TO MARSH LANDING OWNERS AND RESIDENTS

Special Notice

July 31, 2020

We have been made aware that a new single member of the Marsh Landing Community has been diagnosed with Covi-19.

Per recommendations by legal counsel, we are advising residents that the community member is self-quarantined for 14 days and should hopefully pose no risk for other community members.

Please keep in mind that if you have been diagnosed or exposed to Covid-19, as a safety measure you must wear a mask when using community facilities and obey all CDC requirements.

As was the case with the previous resident, there is no known risk as the member did not use the community facilities to the best of our knowledge.

*Your consideration, cooperation and understanding are appreciated. **We urge Marsh Landing Residents to be safe and continue to use caution when in social situations.***

Marsh Landing Board and Management
